### DETAILED ACTION

1. This action is responsive to the amendments filed October 27, 2009. In the instant amendment, claims 37-38 have been amended; claims 46-58 have been canceled; and claims 59-71 have been added.

Amendment to the specification has been entered.

2. Claims 33-45 and 59-71 have been examined, and all remained pending claims are allowed (renumbered 1-26).

### Examiner's Statement of Reasons for Allowance

3. As Applicants pointed out in the Remarks filed May 14, 2009 and addressed in the Notice of Allowance mailed July 28, 2009, the prior art of record (Ng et al. US Patent No. 6,385,618) do not disclose and/or fairly suggest at least claimed limitations recited in such manners in independent claims 33 and 59 *"...instantiating a first instance of a class and a second instance of said class, wherein said class includes a single-valued property attribute; ... assigning to said single-valued property attribute of said first instance a first value that associates a first set of one or more attributes with said first instance; assigning to said single-valued property attribute of said second instance a second value that associates a second set of one or more attributes with said second instance; wherein said first set of one or more attributes is different than said second set of one or more attributes; wherein said first set of one or more attributes and said second set of one or more attributes are not included in said class or any superclass of said class;"* and at least claimed limitations recited in such manners in independent claims 40 and 66 *"...including, in the structure of said instance of said class, a table for storing data associated with a second set of one or more attributes, wherein, for each particular attribute of said second set of one or more attributes, said table includes a particular entry that comprises: a first field for storing an identifier of said particular attribute; and a second field for storing one or more data values of said particular attribute"* (Remarks, pp. 9-12).

Art Unit: 2192

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.
